Subject: Re: Dimmock statement

Hi Travis,

Here is the latest statement on Dimock. We're coordinating very closely with Betsaida. In fact, before responding to any inquiry, we're contacting her first. If you end up referring people to the Region, you can give them my name or David's. -- Terri

EPA is working diligently to understand the situation in Dimock and address residents' concerns. We believe that the information provided to us by the residents deserves further review and we have been actively visiting homes to learn more. We are in the process of determining next steps and reviewing the information we have in hand as quickly as possible so that we are able to provide some answers to affected residents. We hope to share more information soon with residents, the State and Cabot.

Subject: Dimmock statement

Hey Terri

Could you send me the statement you are using in response to call on Dimmock? We are getting calls from the public down here, and want to say something/refer to the right person in Region. Thanks!
